**Mission:** *Needy Paws Rescue is a 100% foster-based nonprofit organization, rescuing dogs at high-kill shelters, strays, abandoned and owner surrenders, regardless of breed or size.*

Needy Paws Rescue (NPR) is dedicated to each dog! A great story from 2019 is that of Echo, aka Baine. A code red was out for a dog to be pulled from Park Hills Animal Control, as he was on death row, and Needy Paws Rescue stepped up to save his life. He was named Echo and was an energetic and loving dog. About a month later, Lora got a call about a dog named Baine. Baine's owners had moved to Virginia and had not been able to take him with them, so they had left him with a relative. The relative could not keep him and surrendered him to Animal Control in March where he waited and waited, until May, when NPR rescued him. The owner had been desperately looking for Baine since they were now able to keep him and hoped they could have him back. Luckily for them, Echo aka Baine, had not been adopted. Once the foster called him by his real name, "Baine," he lit up!

Our dedicated foster was willing to drive over 100 miles to meet halfway in Kentucky to reunite him with his forever family. We love a Happily Ever After!

## 2020 is the year to adopt Griffin!

This greyhound/cattle dog mix is 4 years old and 50 lbs. of love. He's an athlete who loves to run and fetch. This snuggle bug gets along with big dogs too! Go to [NEEDYPAWS.ORG](https://www.NEEDYPAWS.ORG) to find out more.
